First Month's rent \_\_\_\_\_ Subsequent Months or parts thereof \_\_\_\_\_

*Conditions:*

- *The rental period starts on the date that the Flight Control is available from Rocky Mountain Aircraft for pickup.*
- *The rental period ends on the date that the Flight Control is received at Rocky Mountain Aircraft complete with certification including fully executed Component History Card.*
- *The returned flight control will be fully inspected upon its return to Rocky Mountain Aircraft at Rocky Mountain Aircraft's own expense.*
- *Any defect rectification required as a result of discoveries made during the inspection will be at the renter's expense billed at Rocky Mountain Aircraft's standard shop rate, regardless of whether the damage was caused during installation, use, removal or shipping.*
- *The cost of defect rectification will never exceed the agreed outright value.*
- *All freight and brokerage both to and from the renter is at their expense.*

*If the flight control is being provided while Rocky Mountain Aircraft repairs the client's flight control, the following conditions apply:*

- *A Flight Control Rental Agreement must still be completed*
- *The first month's rent will be waived if the client's flight control is received at Rocky Mountain Aircraft within that time frame.*
- *Each subsequent month's rent will be waived while the client's flight control is being repaired at Rocky Mountain Aircraft.*
- *The rental charges will resume on the thirty first day after the client's flight control is shipped back.*
- *All other conditions apply.*
