

FUEL CELL SUMP PLATE ASSEMBLIES FOR DHC-6 FUEL SYSTEM

A COMPLETE SOLUTION

We have another compliment to your DHC-6 Fuel Gallery. The Fuel Cell Sump Plate Assemblies built under our exclusively held Transport Canada PDA18-10 are a direct replacement for the OEM parts on all series of De Havilland Twin Otter.

Whether your operation utilizes standard-style fuel boost pumps, or canister-type (S.O.O. 6159), we have the solution to fit your need.

**GIVE YOUR TWIN
OTTER A RENEWED
FUEL SYSTEM
WITH THE ROBUST,
HIGH-CALIBRE PARTS
IT DESERVES**

EFFECTIVE PDA REPLACEMENT

These manufactured parts are a quality replacement item that interfaces with both the OEM and Rocky Mountain Aircraft's replacement Fuel Manifold Tubes (STC SA16-45), and Tees and Elbow(s) (PDA21-11).
