# Rocky Mountain Aircraft Leasing and Sales

## Aircraft Leasing

---

As a full MRO, we can customize our aircraft to meet your specific requirements. So if the aircraft shown isn't exactly what you are looking for, we can reconfigure the aircraft so that it meets your needs.

We charge a monthly base lease amount plus hourly flying fee (both variable depending on conditions of operation), and our leases both start and end at our facility.

Our aircraft are offered for dry lease only. We believe that our clients know their operations better than we do, so while we can offer logistical, technical and spares support, our clients are free to outsource their requirements at their own discretion.

## Aircraft and Parts Sales

---

As the owner of a large fleet of Twin Otters operating worldwide, and as a long established AMO (Canadian MRO), we carry a large inventory of parts, including flight controls and rotables.

We have a good working relationship with several engine, propeller and component repair stations, which we are happy to leverage to support our clients.
